## Welcome to WildWhisper Skins

**WildWhisper** is a great set of skins that comes in 2 colours and each colour has number of different skin types. This skin does not require you to purchase any other module. There are numbers of skin types as well as containers to suit the each of the colours as well as all the essential images for you to modify your skin. There is a great flash component for you with source code supplied to change in Macromedia flash if required.

Features:

- 2 variations of page design and number of containers for every colour.
- 3.1.1 search and language selector support
- Complete source code for all skin components is provided.
- Original Image files are provided for the banners
- This is a HTML type skin so you will find it is easy to customize or please go [custom request form](#) for a quote for customization.

Please click [here](#) to see my other skins in action. This skin is continuation of my efforts to create alternative designs showing the capabilities of Standard DNN skin technology.

You can ask us to customize this skin and please fill the [custom request form](#) at salaro.com and we will quote a price as soon as we study your requirements.

Please note that All SalarO's Skins are **HTML** rather than ASCX and it allows you to easily change the design if you wish using DreamWeaver/FrontPage. The core builds the ASCX and therefore, it will have better upgrade potential for the next Major release since all you would need to do is to upload the skin and the next version of DNN will build a new ASCX.

### Custom Skins

**salaro.com** At salaro.com we develop the skin for you. Our DNN skins provide an excellent basis for fast and high-quality web-design. we develop custom skins for your DNN at prices you can afford. Please see the full range of our skins for DotNetNuke portal [here](#).

We design it from scratch or base it on an existing template and shape to your company's collateral design protocols and specifications. If you would like more information then please use the [feedback form](#).

We are also launching SalarO.net later in September to provide you with managed hosting as well as Module developments.

### Welcome to CurvyChic

This great Skin Pack comes with number of great pack of containers to suit the skin, as well as, choice of skin types for various situations requiring different content placements in the page. It comes with five themes of blue, grey, green, orange and violet content area, so have fun .

Features:-

- Choice of 5 themes in blue, grey, green, orange content area as well as violet. Each have number of skin types some with 5 panes to place your content in a verity of ways.
- Choice of container themes each with number of container types. Almost 38 containers
- All the relevant html and psd source files.
- A flash file for you to place in any content pane.

Please see the other skins and containers on our site at [www.salaro.com](http://www.salaro.com)

#### Custom Skin Pack

Please complete the Custom Skin Form by [clicking here](#) or email us at [salaro \(@\) from.co.uk](mailto:salaro@from.co.uk) with your requirements.

#### Branding & Logo Service

SalarO.com can help you with branding and Logo Creatio. Please email us for further details to [salaro \(@\) from.co.uk](mailto:salaro (@) from.co.uk).

- 5 business day turnaround time on initial logo designs.
- unsurpassed quality at an unbeatable price: \$99-\$349

#### Content Transfer

SalarO.com has an efficient content transfer service. We can take over transferring all your content across to the new DNN. show us some of the work we have done in this area.

### 5 Great Colours

#### Further Details

**Language Selector:** Language selector is provided with the package so if you have more than one language available in DNN 3.1.1 then it will show itself. For pre 3.1.1 the standard skin pack is provided.

**Search Tokens:** Options is also given for you to use the skin type with no search.

**Standard Logo placements:** You can easily add logo with your own by changing the site logo in all versions of DNN by going to "Admin/Site Settings".

**5 Great colour variation:** Grey, Red, Blue, Orange and Green skins are included in the skin pack. The containers to match is also provided.

**Fixed width:** This skin is the 760px width type of skin with number of containers in each skin.

**Horizontal Menus:** Allows you to have maximum real estate for your content area.

**Matching Containers:** For each skin colour you have the matching container as well as set of standard containers to allow you to place content without any surround graphics. you have 37 in total.

**Browser Compatible:** Full Explorer and Fire Fox compatibility. After all they are the main two. Check your favourite browser for compability.

**Admin skin included:** Each of the colour options contain their own admin skin-type.

**HTML style skins for DNN 2.x & 3.x:** The skins are all HTML and not aspx. Therefore, you will have painless upgrade to the next version of DNN as the core skinning engine will account for the upcoming changes and creates the correct aspx files.

**Easy customization:** Skins are HTML style with css link placed. This would allow you to customize the skin with minimum coding knowledge. Just open the skin in DreamWeaver and you will see the skin tokens and move them or change graphics to suit.

**Source Files Included:** for all aspects of the skin and containers and the flash, you will see the full source code. There are no need to purchase any third party module or skin object to make this skin work.

**Customize the Flash:** Open the Flash file provided in Macromedia Flash. Go to library and update text or images to suit. Just make sure that your new image is clean and cut to the same size of the movie window. if you need an expert in Macromedia Flash we can customize the flash file to suit your industry from \$99. You do need to use a third party flash module to place it in any pain you wish. However, it is also possible to place it using text/html module. The necessary codes are given.

**Great Support:** Support by email or support desk

**Welcome to Home Designers Skins**

Enchant skin is designed for the standard DNN3.1.1 and we have supplied a version without language selector for your pre 31.1 portals. This skin does not require you to purchase any other module. There are numbers of skin types as well as containers to suit the skin as well as all the essential images for you to modify your skin.

**Features:**

- 5 variations of colour themes.
- 5 variations of containers to match
- Complete source code for all skin components is provided.
- Original Image files are provided.
- Original flash file is provided and customization from \$99.

Please [click here](#) to see my other skins in action. This skin is continuation of my efforts to create alternative designs showing the capabilities of Standard DNN skin technology.

You can ask us to customize this skin and please fill the [custom request form](#) at salaro.com and we will quote a price as soon as we study your requirements.

Please note that All SalarO's Skins are HTML rather than ASCX and it allows you to easily change the design if you wish using DreamWeaver/FrontPage. The core builds the ASCX and therefore, it will have better upgrade potential for the next Major release since all you would need to do is to upload the skin and the next version of DNN will build a new ASCX.

## 10. City Corp Skin \$39

The screenshot shows a web browser window displaying the CityCorp skin website. The browser's address bar shows the URL: <http://skins.salaro.com/Default.aspx?alias=skins.salaro.com/citycorp>. The website has a dark blue and grey color scheme with a cityscape background. The main content area is divided into several sections:

- Custom Skins:** A sidebar section with a "salaro" logo. It contains text about custom skins for DNN, a "Design" button, a "Code" button, and information about language selectors for DNN3.1.1.
- Welcome to DotNetNuke...:** A main section with a heading and a paragraph explaining that the CityCorp skin is designed for standard DNN3 but works for DNN2. It lists features such as 5 variations of page design, 100% width, skin PSD, complete source code, and original image files.
- Footer area:** A section at the bottom of the main content area explaining that the footer can have links and standard content displayed on all tabs.

The browser's taskbar at the bottom shows the Start button, several application icons, and the system tray with the time 9:43 PM.

# 11. BrushedSteel3 Reloaded Skin \$45

The screenshot displays a web browser window showing the SalarO website. The browser's address bar shows the URL: <http://skins.salaro.com/Default.aspx?skin=skins.salaro.com/brushedsteel>. The website has a navigation menu with options: Home, Error Page, SalarO, Green, Dark, Cream, Violet. Below the navigation is a search bar and a "You are here" breadcrumb.

The main content area features a large image of a brushed steel cube with the SalarO logo in the bottom right corner. Below this image are three main sections:

- Custom Skins:** A sidebar section with a "calisto" logo and text: "At SalarO.com we develop the skin for you. Our DNN skins provide an excellent look for fast and high-quality web-design. We develop custom skins for your DNN at prices you can afford. Please see the full range of our skins for Joomla!/ake portal [here](#)." It also mentions design from scratch or based on existing templates, and the launch of SalarO.net later in September.
- Welcome to Home Designers Skins:** A central section with a heading "BrushedSteelReloaded skin was designed for the standard DNN, and it was one of the very popular ones during 2004. We have now reloaded it for DNN3. The skin does NOT require you to purchase any other module. There are number of skin types as well as containers to suit the skin as well as all the associated images for you to modify your skin." It lists features: 6 variations of page design, complete source code, and 5 great brushed steel containers. It includes a small image of the skin in use and a "request form" link.
- Further details:** A section with a heading "Further details:-" and a list of specifications: 7 page widths, language selector, search options, image loss skin type, standard logo placements, 4 great colour variations, horizontal support menu, matching containers, browser compatibility, admin skin included, HTML style skins, easy customization, source files included, and great support.

At the bottom of the page, there is a copyright notice: "Copyright 2002-2004 SalarO.com | Terms Of Use | Privacy Statement". The browser's taskbar at the bottom shows the Start button, several icons, and the system tray with the time 9:54 PM.

## 13. FlashMusic Skin \$39

The screenshot shows the website for the FlashMusic Skin, viewed in Microsoft Internet Explorer. The browser's address bar displays the URL: <http://skins.salaro.com/Default.aspx?alias=skins.salaro.com/flashmusic>. The website has a blue and grey theme with a keyboard graphic in the header. The main content area is titled "WELCOME TO HOME FLASHMUSIC SKINS" and features a search bar, a navigation menu with buttons for "Home", "Inner Page", "SalarO", "Flash Intro", and "Inner page 02", and a "CUSTOM SKINS" section. The "CUSTOM SKINS" section includes a "salaro" logo and text describing the service: "At salaro.com we develop the skin for you. Our DNN skins provide an excellent basis for fast and high-quality web-design, we develop custom skins for your DNN at prices you can afford. Please see the full range of our skins for DotNetNuke portal [here](#)." Below this, it states: "We design it from scratch or base it on an existing template and shape to your company's collateral design protocols and specifications. If you would like more information then please use the [feedback form](#)." The main text describes the "Flash Music skin" as one of their popular skins for DNN2, now reloaded for DNN3, and lists features: 5 variations of page design, choice of horizontal/vertical Solpart menu, complete source code, and image drop capability. A "SalarO" logo is prominently displayed. The footer contains copyright information: "Copyright 2002-2005 SalarO | SalarO.com | Terms Of Use | Privacy Statement". The Windows taskbar at the bottom shows the start button, system tray, and open applications like "Inbox", "Adobe P...", "screen-s...", and "Home".

This is a smaller, lower-resolution version of the same website screenshot shown above. It captures the same content, including the browser window, website navigation, and main text, but with less detail and smaller text.

**Customize Cerulean Melody Skin with SalarO**

Serenity skin is a popular skin for 2.1.1 and since the skin is HTML type rather than ASCX, the upgrade did work for 3.1.1, yet it was not perfect with some issues with FireFox. Now I have updated it for 3.1.1 and after you will find that it has language selector option as well as full compatibility with FireFox.

Features:

- 760px skin that stretches with larger content without breaking up.
- 3 variations of page design and 2 main variations of Containers.
- Complete source code for all skin components is provided.
- Original Image files is provided

**salaro** At **salaro.com** we develop the skin for you. Our DNN skins provide an excellent basis for fast and high-quality web-design. We develop custom skins for your DNN at prices you can afford. Please see the full range of our skins for DotNetNuke portal **here**.

We design it from scratch or base it on an existing template and shape to your company's collateral design protocols and specifications. If you would like more information then please use the **feedback form**.

### Welcome to Home Designers Skins

**Living Spaces** skin was designed initially for the standard DNN2 and it was one of our best sellers last year. We adapted it slightly for DNN3 so it is simpler to use than the old one. It should also still be possible to use it for DNN2. This skin does not require you to purchase any other module. There are numbers of skin types as well as containers to suit the skin as well as all the necessary source files for you to modify your skin.

#### Features:

- 6 variations of page design and number of containers.
- Complete source code for all skin components is provided.
- 4 different Flash files with source code provided if you want to change it.
- number of containers to suit the design.

Please **click here** to see my other skins in action. This skin is continuation of my efforts to create alternative designs showing the capabilities of Standard DNN skinning technology.

You can ask us to customize this skin and please fill the **custom request form** at salaro.com and we will quote a price as soon as we study your requirements.

## 21. Bettery Powered Skin \$35

November 05, 2005 Login | Register

### BATTERY POWERED

Home SkinTypes Services **Battery Powered** Highlight SalarO

**Welcome to Battery Powered Skins**

**Battery Powered** by SalarO is a new design idea which suites companies that have requirement for something differente for their presentation. It is tested on 3.1 and comes with containers to match. This is another cool Skin for DNN3 a fun approach to the theme yet and comes with three cool containers for you to use that allows you to place your content within a number of content panes.

features:-

- > 3 skin types your home page, inner page with many content panes for the design and and a few variations of Containers.
- > Complete source code for all skin components is provided.
- > Complete source code the containers
- > 780px as well as 95% width of the skin types are supplied

This is another skin that is from my 3D range of skins. [Click here](#) to see my other skins in action.

**Custom Design Example**

BetterHumans are in the business of providing information; they don't want the design to distract too much from the content. Additionally, they may want the space occupied by Flash to be occupied by advertising in Betterhumans.com. So we addressed these issues using small Flash elements that complement rather than distract. Another important point for the home page was that it is able to accommodate a lot of content and links to content. ButterHumans produce news and feature articles daily, and need to be able to display new and featured articles on the home page. They also need to have some flexibility in the display of this content so that they don't have to revamp the site when we want to tweak the homepage.

We achieved these objectives and more with a cool design with the help of Vasilis and Salar.

Please have a look at the show cases at SalarO.com by [clicking here](#).

**Custom Skins**

Custom Skins are available by request for **£119.00** per Static Skin, **£229** for Skin with Flash content and **£349** for site multilevel skin where your home page has a different skin to the rest of the pages. We also allow for several "tweaks" during the development according to your needs.

We design it from scratch and tailor to your company's collateral design protocols and specifications. If you would like more information then please use the feedback form.

DNN skins price is set at £29.95 each with an extra £29.95 for image customization so that your own image can have the round edges and sit in the provided flash file.

Welcome to Pro-corp Skins

This Skin is for the standard DNN3 and may appeal to companies with products and services in Professional Services and Support related industries. Just insert your own company logo and you will immediately have a website tailored for your own organization. This Skin does not require the purchase of any other module. There are flash files that are associated with this design but I have used CSS extensively to produce the look and feel. This skin is tested for the latest 3.1 and has the. The top static navigation uses 4 Content Panes that you can have either Link Module or Basic HTML module and place a graphic or text and link it to the main areas of your site. Or in a multi-portal situation, you can have them linked to child portals for different products and services that your company offers.

Image files to customize and use in your web pages.

- > Variations of page design and 3 variations of Containers.
- > Complete source code for all skin components is provided.
- > Original images are supplied.
- > Flash swf files to change the text within the flash.

Custom Skins are available by request for £99.00 per Static Skin, £199 for a Skin with Flash content and £299 for a multilevel Skin where your home page has a different Skin to the rest of the pages. We also allow for several "tweaks" during the development according to your needs.

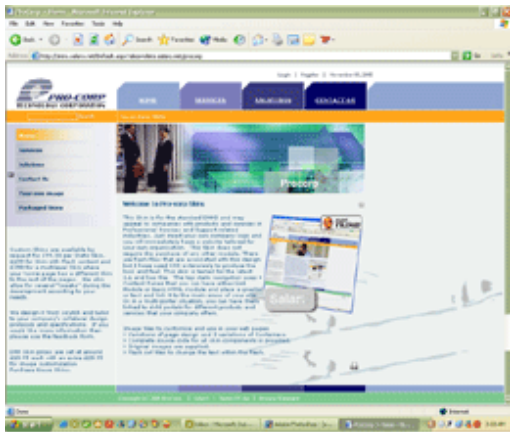

We design it from scratch and tailor to your company's collateral design protocols and specifications. If you would like more information then please use the feedback form.

DNN Skin prices are set at around £19.95 each with an extra £29.95 for image customization. Purchase these Skins.

## 25. Home Designers Skin \$35

The screenshot shows a Microsoft Internet Explorer browser window displaying the website for the Home Designers Skin. The address bar shows the URL: <http://skins.salaro.com/Default.aspx?alias=skins.salaro.com/homedesigners>. The website has a red and orange color scheme. At the top, there is a navigation menu with links for Home, Inner Page, and SalarO. Below the navigation, there is a search bar. The main content area is divided into two columns. The left column is titled "Custom Skins" and contains text about the services offered by salaro.com, including a "feedback form" link. The right column is titled "Welcome to Home Designers Skins" and provides details about the skin's compatibility with DNN2 and DNN3, its features (3 variations of page design, complete source code, and original image files), and a link to see other skins in action. A small image of the skin is shown in the right column. At the bottom of the page, there is a footer with copyright information (Copyright 2002-2005 SalarO), links to Terms Of Use and Privacy Statement, and the date Saturday, November 05, 2005. The taskbar at the bottom shows the Start button, several application icons, and the system clock showing 3:24 AM.

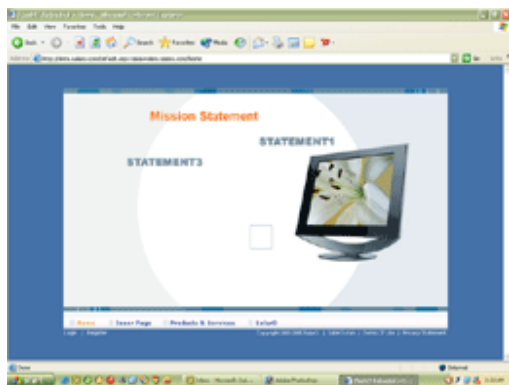

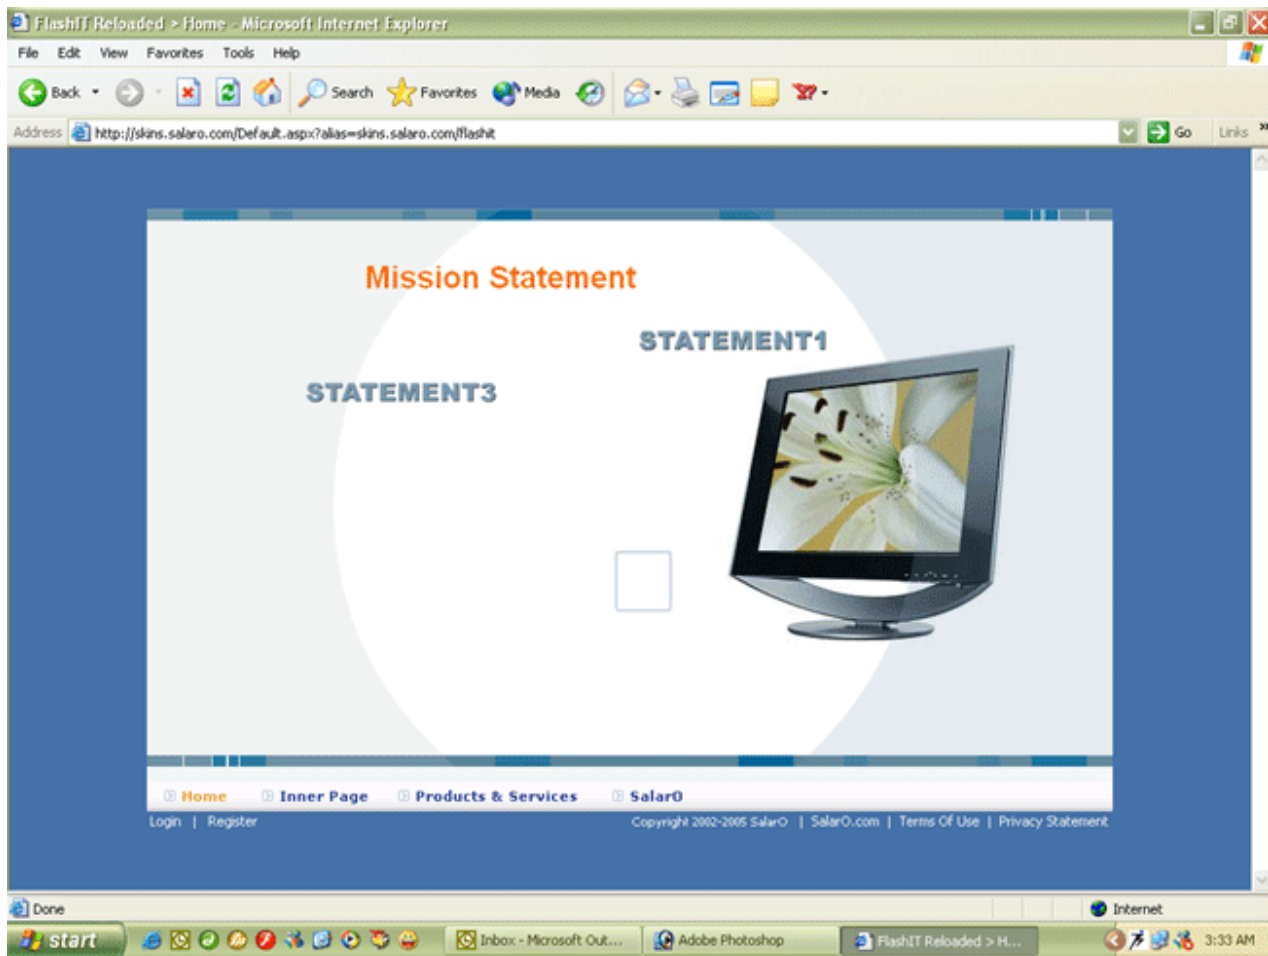

This is a smaller, thumbnail version of the screenshot above, showing the same website content in a reduced size. It includes the navigation menu, the "Custom Skins" and "Welcome to Home Designers Skins" sections, and the footer information.

## 26. Trading Places Skin \$39

The screenshot shows a web browser window displaying the 'Trading Places Skin' website. The browser's address bar shows the URL: <http://skins.salaro.com/Default.aspx?skas=skins.salaro.com/tradingplaces>. The website features a navigation menu with 'Home', 'Skin Types', and 'SalarO' buttons. A search bar is located in the top right corner. The main content area includes a banner image of a man in a suit, a 'Think Different' section with placeholder text, a 'Welcome to Trading Places skin' section with a list of features, and a 'Praesent molestie' section with more placeholder text. The footer contains copyright information: 'Copyright 2002-2005 SalarO | SalarO.com | Terms Of Use | Privacy Statement'. The Windows taskbar at the bottom shows the Start button, several application icons, and the system tray with the time 3:29 AM.

This is a smaller, zoomed-in version of the same website screenshot shown above. It displays the same content, including the navigation menu, banner image, 'Think Different' section, 'Welcome to Trading Places skin' section with features, and 'Praesent molestie' section. The browser window and taskbar are also visible, showing the same URL and system tray information.

### Welcome

This skin is for the standard DNN3 Portal. This skin is may appeal to Microsoft professionals working closely with Microsoft Technologies. All you need to do is ensure you place your company logo and you will immediately have a website that users can associate it with Microsoft .NET technology. This Skin does not require the purchase of any other module. There are number of images provided design but I have used CSS extensively to produce the Modern MS look and feel. This skin It is tested for the latest 3.0.12 and it comes with over 6 skin variations that allows you to place your content within a number of content panes, also, there are a few containers included with this skin to match the themes. However, I advise you to use the basic containers as it goes with the site much better. see the skin in action [here](#).

### Custom Skins

£125.00 per Static Skin, that has one single skin to accommodate all conditions. This skin will not have any container or separate admin skin.

£250 is for Skin-Package with Flash content. This is the one with one homepage skin and one internal skin and no containers

£240 is for Skin-package that has home skin, inside skin and admin skin and 2 containers to match the design.

£350 is for a site with many variation of skin design either containing various images per skin type or various containers to accommodate variety of Module each with varying sizes or skin for your home page as well as different skins for the rest of the pages. One also has the flash animation showing on the home page as well as up to two containers to match the design. That is if the skin needs it. This package has a reasonable level of support, to allow for several "tweaks" during the development according to your needs.

£499 is and average price guide for a corporate website which is as above whilst will allow number of revisions and we are geared to comply with a more rigorous approval process.

### Features:

- Image files to customize and use in your web pages.
- 6 variations of page design and number of Containers with a new version of the sidemenu container.
- Complete source code for all skin components is provided.
- Some firework files are provided but the skin does not have the overall psd since I never created it from Photoshop file. I used html page and most of the images are from css.
- This skin is the fourth of the series of skins that each will concentrate on images and flash content for specific industry. [Click here](#) to see my other skins in action.
- This Release also includes the Original Flash file.

This is a smaller, lower-resolution version of the same screenshot shown above. It displays the same website content, including the navigation menu, "MSCurvy" logo, "Custom Skins" section, and the main text area with the "Text Name 1" placeholder and the list of features. The overall layout and content are identical to the larger screenshot, but the text and images are smaller and less detailed.
